Can you store spray paint in a safety cabinet?
Eagle offers safety cabinets specifically designed for paint and spray paint storage. They feature additional shelving designed to store 1-gallon paint of ink cans,or aerosol cans. Made from 18-gauge (1.27 mm) double walls of welded steel,the air gap between the walls insulates the paint from the heat of a fire.
How many gallons of paint can be stored in a cabinet?
For quantities between 25 and 60 gallons,an approved safety cabinet is required by OSHA for paint storage. No than 60 gallons should be stored in any one storage cabinet and no more than three cabinets may be located in a single storage area. Quantities in excess should be stored in an inside storage room.
What is the best way to store paint & spray paint?
This is the best way to safely and securely store paint at a manufacturing or processing plant,laboratory or commercial institution. A flammable cabinetprovides extra fire resistance,and helps to protect personnel and property. Eagle offers safety cabinets specifically designed for paint and spray paint storage.
