What is a 1000v DCB?

Ampcontrol designs and manufactures a range of 1000V DCBs to suit mining applications such as underground development systems. Ampcontrol's 1000V DCB product range includes up to 12 outlets and can be offered in either flameproof or IP rated enclosures, built to customer specifications.

How many outlets does a 1000v DCB have?

Ampcontrol's 1000V DCB product range includes up to 12 outlets and can be offered in either flameproof or IP rated enclosures, built to customer specifications. The current range includes both explosion proof and Ingress Protected (up to IP66) enclosures with up to 12 outlets for 1000V power distribution.

Are 1000v power distribution outlets protected?

The 1000V power distribution outlets are provided with protection by our integrated protection relays. This ensures the DCB generally meets the electrical protection requirements of AS4871.2012.
