Azrieli Group partners with Shikun & Binui for a groundbreaking solar-plus-storage project, advancing Israel's renewable goals and securing clean energy for 20 years.

As part of the first regulation of the Electricity Authority, Doral established the first storage facility in Israel, in Kibbutz Ma"ale Gilboa, and combined a solar field and storage capacity in Kibbutz Holit.

Discover how solar energy storage is revolutionizing the energy sector in Israel. Take advantage of innovative solutions to maximize solar energy use, reduce costs, and promote a ...

The Israeli Ministry of Energy and Infrastructure has announced that the country's National Council had approved a detailed master plan for the construction of Israel's first large-scale energy storage facility.

JinkoSolar today announced it has delivered a 10MWh of DC-side battery storage system to Israel. With this pre-installed high energy density ESS, which is scalable, controllable, and...

Emerging markets in Africa and Latin America are adopting mobile container solutions for rapid electrification, with typical payback periods of 3-5 years. Major projects now deploy clusters of 20+ ...

"This project supports Israel's 2030 energy storage targets and demonstrates how smart engineering and scalable technology drive long-term energy resilience and grid independence.

As part of the first regulation of the Electricity Authority, Doral established the first storage facility in Israel, in Kibbutz Ma"ale Gilboa, and combined a solar field ...
