For this purpose, this paper uses the super-efficiency SBM model, ML index and Tobit model considering undesired output to explore the energy efficiency and the main factors affecting it ...

Is there heterogeneity of the moderating effect in the upper, middle and lower reaches of the Yangtze River Economic Belt? The contributions of this paper are mainly shown in the following ...

By deploying energy storage solutions effectively, Yangtze River Energy Storage not only enhances energy reliability but also contributes significantly to environmental conservation efforts.

This paper uses the two-stage NDEA-SBM model to calculate the energy, ecology, and economic (3E) efficiency of the Yangtze River Economic Belt (YREB) and analyze the ...

The economic belt currently contributes 47.3 percent of the national economic output, up from 42.2 percent ten years ago, and has significantly boosted the share of sections with good water ...

By deploying energy storage solutions effectively, Yangtze River Energy Storage not only enhances energy reliability but also ...

A subsidiary of China National Offshore Oil Corporation (CNOOC) has completed the construction of China's largest LNG storage base, a move that aims to ensure energy security and support ...

Is there heterogeneity of the moderating effect in the upper, middle and lower reaches of the Yangtze River Economic Belt? The contributions of this paper are mainly ...
