Who is EPC power?

Together, we're revolutionizing power conversion for a brighter, more sustainable future for the generations ahead. In addition to our USA and Finland offices, EPC Power has over 4,000 MW deployed within the United States and nearly 6,000 MW deployed worldwide. Providing you with future forward power conversion solutions.

What is an integrated energy cabinet?

As one of our highlights, the integrated energy cabinet integrates multiple functions such as power distribution, environment monitoring and safety protection into one, providing a full range of energy management and protection for communication sites.

Why should you choose EPC power?

EPC Power provides your operation with adaptable PCS solutions. Engineered for space efficiency and seamless integration, our IP55-rated systems provide reliable performance in any application and fuel the world's largest renewable energy projects. Our inverters provide reliable, high-power output and advanced grid interaction for data centers.

This heavy-duty enclosure securely houses a Stand By Power Supply and three (3) batteries along with equipment and cable required for fiber optic conversion and/or distribution.

The CAB1000 is a scalable power inverter that provides reliable energy conversion for applications of any size. Designed for both UL and IEC markets, it's the easy-to-use building block that gets your ...

The CAB1000 is a scalable power inverter that provides reliable energy conversion for applications of any size. Designed for both UL and IEC markets, it's the easy ...

It supports both AC and DC independent configurations, optimizing overall system performance. Smart algorithms dynamically adjust charging and discharging processes for peak shaving, valley filling, ...

Built on Magna-Power's current-fed power processing with integrated harmonic neutralizers and 12-bit precision control, ML Series systems scale beyond 10 MW with low THD and robust master-slave ...
