The modular PCS solves the circulating current between battery racks. The discharge amount of the whole life cycle is increased by 6~8%, LCOE reduced by 3%~5%.

Product features(Grid Scale Battery Energy Storage System): Low energy consumption, long life, high consistency, high stability. Application scenarios: photovoltaic power plants, wind power ...

Product features(Containerized Energy Storage System): Low energy consumption, long life, high consistency, high stability. Application scenarios: photovoltaic power plants, wind power stations, ...

The 5MWh 20 Liquid-Cooled Energy Storage DC Cabin is a high-performance energy storage solution designed for large-scale applications, including renewable energy integration, peak shaving, and ...

The company's products include both air-cooled and liquid-cooled battery packs, characterized by high energy efficiency, compact design, lightweight construction, and OEM/ODM services.

Adopting high-capacity and high-performance battery packs, it can achieve 5MWh of energy storage to meet the demand for long-time and large-scale energy storage.

The 5MWh 20 Liquid-Cooled Energy Storage DC Cabin is a high-performance energy storage solution designed for large-scale applications, including ...

Supplier highlights: This supplier mainly exports to Hong Kong, Nigeria, and Ukraine, achieving a positive review rate of 100.0%. This product has acquired the relevant product ...
