What is 5G power & iEnergy?

Fully meet the requirements of rapid 5G deployment, smooth evolution, efficient energy saving, and intelligent O&M. Including: 5G power, hybrid power and iEnergy network energy management solution. 5G power: 5G power one-cabinet site and All-Pad site simplify base station infrastructure construction.

What is the difference between 5G power one-cabinet site and all-pad site?

5G power: 5G power one-cabinet site and All-Pad site simplify base station infrastructure construction. From the indoor station to the outdoor station, it is further developed to All-Pad site. In this case, the equipment room is changed into cabinets, multiple cabinets are changed into one cabinet, and one cabinet is changed into Pad.
