-----

The liquid-cooled XII type energy storage battery prefabricated cabin is a modular, fully integrated product that can operate in a wide temperature range of -30°C~55°C, with strong environmental ...

Product features(Containerized Energy Storage System): Low energy consumption, long life, high consistency, high stability. Application scenarios: photovoltaic power plants, wind power stations, ...

The newly launched 5MWh+ battery compartments using large-capacity cells such as 305Ah, 314Ah, 315Ah, and 320Ah are generally integrated based on 20-foot cabins, and the double-door design is ...

We can offer flexible deployment of multiple battery containers supporting both back-to-back and end-to-end installations. The battery container is compatible with the leading global inverter manufacturers ...

The battery system is a containerized solution that integrates 10 racks of LFP batteries for the 4 MWh model and 12 racks of LFP batteries for the 5 MWh ...

Our products ensure reliability and performance for solar photovoltaic, battery energy storage, and EV charging systems. We hold certifications from renowned organizations such as UL, SAA, CB, CE, ...

We can offer flexible deployment of multiple battery containers supporting both back-to-back and end-to-end installations. The battery container is compatible ...

The 5MWh 20 Liquid-Cooled Energy Storage DC Cabin is a high-performance energy storage solution designed for large-scale applications, including renewable energy integration, peak shaving, and ...
