What kind of batteries are available in Canada?

Canadian battery supplier offering superior sealed lead-acid, lithium iron phosphate and lead carbon batteries. Battery experts specializing in energy solutions are available to help you find the best batteries for your project. State of the art battery equipment is used to manufacture batteries for consistent quality and fast production.

Who makes CANBAT batteries?

Canbat is a Canadian battery company specializing in deep cycle and backup applications. Our line of products include sealed lead-acid (SLA), lithium iron phosphate (LiFePO4) and lead-carbon batteries. We also manufacture lithium battery chargers and power converters, primarily used in the RV market.

What is a sealed lead acid battery?

Canbat is constantly developing new battery technologies to meet the demands of the evolving global battery market. Sealed lead-acid batteries are often referred to as valve-regulated lead-acid (VRLA), or simply sealed lead acid (SLA). There are primarily two types of these batteries: AGM and Gel.

Who owns Canadian energy?

Canadian Energy is proudly 100% Canadian owned and operated, built by Canadians to serve Canadians nationwide. 20 warehouse distribution locations across Canada, supported by three major distribution centers in Calgary, Quebec, and Toronto.

Sunwoda's OASIS 60 is a modular, high-performance battery energy storage system designed for commercial and industrial scale applications.

Canbat designs and manufactures lithium iron and sealed lead-acid batteries according to Canadian quality standards. Our batteries have the best cycle life because of our proprietary technology, which ...
