Designed to exceed IFC24 fire-containment standards, it enables secure storage of bulk, damaged, or prototype batteries without the need for a separate fire-rated room. Lightweight, ...

Featuring 8 independent test channels, each with a 5V/6A rating, this system is ideal for evaluating high-capacity cylindrical cells such as 18650, 21700, and 26650.

SR Brackets are an open battery stacking system that is flexible, secure, and sets up in only a few minutes. Stack up to 8x SR5K-UL battery modules securely using the interlock hinges.

Exponential Power's Battery Cabinets & Enclosures provide durable, secure solutions for telecommunications and industrial applications. Designed to protect battery systems, these ...

From circuit breakers and buses to enclosures, panel boards, and switchboards, we offer a full range of safe, reliable solutions for low-voltage electrical distribution applications. Low Voltage ...

We have outlined a complete battery assembly process for prismatic cells - from the single cell to the finished battery pack. We help our customers develop unique joining processes and select ...

EverExceed VRLA battery assembly cabinets are very durable, and easy to install. Engineered for use with most type of battery terminal models, these cabinets can fit a wide variety of ...

We can design, build, and integrate a complete system for your solar battery enclosure! Take the guesswork out of your solar system and let us put together the perfect solution for you.
