Who makes outdoor Telecom cabinets?

Since 1989, we've manufactured outdoor telecom cabinets in America's Heartland, providing telecommunications companies, utilities, and network operators with BABA-compliant solutions that protect critical equipment from the harshest environmental conditions.

What is an outdoor telecom enclosure?

Our outdoor telecom enclosures support a wide range of telecommunications and infrastructure needs: Fiber Optic Networks: From compact fiber distribution units to high-capacity data center enclosures like the AP-Data with six slack frames, our cabinets manage dark-fiber volumes with organized cable management and secure slack storage.

What is an AP utility cabinet?

The AP Utility cabinet ensures wide-ranging indoor and outdoor functionality, including power distribution, fiber termination, telecommunications, security and surveillance, cellular backhaul, industrial controls, and CATV. Ready to protect your network infrastructure with American-made quality?

What are outdoor cabinet solutions?

Outdoor cabinet solutions are widely used in various sectors: Telecommunications: In telecommunications infrastructures, outdoor cabinets are used to protect base stations, network switches and other communication devices located outdoors.

Designed to save deployment cost and time, our innovative solutions include hub collapse, battery backup, composite mounting platforms and modular series cabinets. Modular capability helps future ...

Learn about their features, including weatherproofing, temperature control, and space optimization, making them ideal for outdoor installations in remote locations and urban settings.

Designed to save deployment cost and time, our innovative solutions include hub collapse, battery backup, composite mounting platforms and modular series ...

Whether you need a compact fiber distribution unit or a large UPS enclosure, each outdoor telecom box can be configured to support integrated power, fiber optic, and data systems within our facility.

Explore AZE's premium NEMA-rated and weatherproof enclosures designed for telecom, industrial electrical,
