How many battery swap cabinets are there?

With rich industry experience, we have deployed more than 5,000 battery swap cabinets and put into use 65,000+ smart lithium batteries, providing convenient services for drivers in more than 35 countries around the world, helping clients build a profitable and scalable battery swap business.

What is a TYCORUN battery swap cabinet?

The swap cabinet uses intelligent charging strategies to optimize battery performance, with easy maintenance, real-time fault alarms. TYCORUN batteries are built for business swap applications, using top-tier cells that withstand high-frequency daily cycling, with shock resistance, high safety, and integrated smart 4G GPS.

How a battery swapping cabinet is managed by Shenrui?

Program Process ---- The battery operation data and the operation information of the battery swapping cabinet are uploaded to the cloud for management through the IOT module of the battery swapping cabinet. Shenrui provides on-board VCU, vehicle control module, replacement battery BMS module, module and cloud platform data can be directly linked.

Why do you need an electric motorcycle battery swap cabinet?

The electric motorcycle battery swap cabinet has been the perfect fit. Its modular design allows us to add more cabinets as our fleet expands, without requiring any major infrastructure changes. This scalability feature has saved us significant costs and allowed us to easily accommodate our growing number of electric motorcycles.

Key Features

- o Quick battery-swap
- o Data monitoring
- o Efficient operation
- o Anti-Theft Tracking
- o Intelligent management
- o Safety protection
- o Performance guarantee
- o Professional customization

Dynamic capacity increase: energy storage equipment is used to replace the capacity of transformer in peak period to help customers reduce and reduce the expansion cycle and cost of transformer ...

Innovate the modular battery swap mode of "vehicle and electricity separation". Relying on intelligent battery compartment, Internet of Things real-time monitoring system and cloud energy dispatching ...

Yes, the battery swap cabinet is designed to accommodate multiple batteries, allowing for the storage and management of spare batteries. This setup ensures ...

Yes, the battery swap cabinet is designed to accommodate multiple batteries, allowing for the storage and

management of spare batteries. This setup ensures that a sufficient number of charged batteries ...

With a firm grasp of advanced battery swap technology, backed by a solid 16-year history in power battery production, TYCORUN is capable of delivering a comprehensive suite of solutions - battery ...

The 120 kW automatic switching cabinet integrates STS-based control, protection, and monitoring functions to enable safe and automatic grid-connected and off-grid operation works with energy ...

Key Features  
oQuick battery-swap  
oData monitoring  
oEfficient operation  
oAnti-Theft Tracking  
oIntelligent management  
oSafety protection  
oPerformance guarantee ...
