---

As Europe races toward climate neutrality, Bulgaria's surge in storage capacity signals a shift not only in national priorities but also in regional energy dynamics.

Each unit features a 110 kW hybrid inverter, battery management system, and five battery stacks. Each stack offers 12 kWh of energy storage capacity and there are four in each SigenStack ...

This project comprises a DC-coupled photovoltaic plus energy storage system deployed in Bulgaria. It implements multiple energy management strategies, including self-generation for ...

This solution uses 5 sets of 100kW/215kWh modular outdoor cabinet energy storage system, which support up to 15 units in parallel. It's an ideal choice for application scenarios such as factories, ...

This solution uses 5 sets of 100kW/215kWh modular outdoor cabinet energy storage system, which support up to 15 units in parallel. It's an ideal choice for application scenarios such as ...

Our solutions also support off-grid and on-grid microgrids, PV + ESS + EV charging integration, and customized projects for the Bulgarian market. Partner with Highjoule to access reliable products, ...

Each unit features a 110 kW hybrid inverter, battery management system, and five battery stacks. Each stack offers 12 kWh of energy storage capacity and there are four in each ...

Bulgarian solar power plant operator Sunterra RE added co-located energy storage to its operational portfolio. The company's three photovoltaic systems, with 524 MW in combined peak ...
