What is New York State's first bulk energy storage competitive solicitation?

Categories: Storage, Energy Policy, Energy Storage, Batteries On July 28, 2025, Governor Kathy Hochul announced the launch of New York State's first bulk energy storage competitive solicitation.

What is bulk energy storage & how can it help New York?

New York Secretary of State Walter Mosley said, "In looking ahead for the state's future, bulk energy storage can provide the ability to store excess electricity during times of lower usage or high renewable production and return that electricity to the grid during peak times when it's needed most.

What is an energy storage capacity (ISC)?

ISCs will be created based on a project's operational availability, and will represent one megawatt hour of energy storage capacity that is operational and available to discharge on a given day; projects will be credited and compensated based on the operational availability they achieve in each month over the course of the 15-25-year contracts.

Should bulk energy storage be added to New York's grid?

Adding bulk energy storage to New York's grid will lower costs, optimize the generation and transmission of power, enhance energy grid infrastructure, and ensure the reliability and resilience of the State's electricity system.

Governor Kathy Hochul today announced the launch of New York's first Bulk Energy Storage Request for Proposals (RFP), intended to procure one gigawatt (GW) of bulk energy storage ...

As a result, energy storage negotiations will involve the consideration of new terminology (charging capacity, charging duration, storage capacity) and ...

It primarily addresses procurement of smaller-scale storage technologies such as batteries and flywheels. Larger-scale storage technologies, such as pumped hydro and compressed air energy ...

Con Edison and Orange & Rockland are seeking bids for the scheduling and dispatch rights for bulk-connected energy storage projects.

This guide explains what battery energy storage system wholesale really means, how it differs from retail energy storage, and how project owners, EPCs, and integrators can evaluate ...

Bulk procurement of extra-large capacity integrated energy storage cabinet
