CHISINAU, Aug 16 (Reuters) - Moldova launched its first tender for wind and solar power plants on Friday as part of a push to reduce its reliance on Russian energy.

The tender aims to construct wind power plants with a capacity of up to 105 megawatts and photovoltaic plants with a maximum capacity of 60 MW, ...

As Chisinau accelerates its transition toward renewable energy, liquid cooling energy storage containers are becoming vital for stabilizing power grids and maximizing solar/wind utilization. This article ...

Chisinau, July 12 /MOLDPRES/- First tenders for the construction of wind and photovoltaic parks with a total capacity of 165 MW were launched today in Chisinau.

Moldova is launching its second auction round for onshore wind farms with a total capacity of up to 170 MW, requiring mandatory battery energy storage systems. Energy Minister Dorin Junghietu ...

Summary: Explore the latest price trends, government incentives, and ROI potential for photovoltaic (PV) systems paired with energy storage in Chisinau. Discover how solar power and battery ...

The tender aims to construct wind power plants with a capacity of up to 105 megawatts and photovoltaic plants with a maximum capacity of 60 MW, the energy ministry said.

Building on this momentum, the second auction, scheduled for autumn 2025, will introduce battery energy storage systems (BESS) alongside wind projects, marking a pivotal step in ...
