Will Cote d'Ivoire have a solar power plant?

The solar power plant is then expected to be the largest in West Africa. The further expansion of solar energy in Cote d'Ivoire will primarily be realised by private investors. The successful project in Boundiali demonstrates to them that large solar projects are technically and financially feasible in similar countries.

Who will build a solar PV plant in Cote d'Ivoire?

Abidjan, Cote d'Ivoire, August 7th, 2025 - IFC and the Government of Cote d'Ivoire today announced Infinity Power Holding as the winning bidder to design, finance, build, and operate two grid-connected solar PV plants in Cote d'Ivoire.

Where is the first solar power plant in Cote d'Ivoire?

In Boundiali in the north of Cote d'Ivoire, the country's first solar power plant has now been inaugurated by Ivorian Prime Minister Beugre Mambou and German Parliamentary State Secretary Babel Kofler. The power plant has already been providing up to 37 megawatts of power since June 2023.

How will a new solar power plant benefit Cote d'Ivoire?

The clean electricity generated in this way can supply 35,000 households, benefiting around 150,000 people. The new plant will save 35,000 tonnes of greenhouse gas emissions every year - an important contribution to climate protection. The solar power plant is regarded as a model project for the expansion of solar energy in Cote d'Ivoire.

In this study, achievements, potentials and perspectives for renewable energy sources in Cote d'Ivoire have been investigated. Cote d'Ivoire has abundant natural sources of renewable ...
