Safety designs such as water and electricity separation, three-level fire protection + explosion venting + exhaust, liquid cooling + dehumidification design, all ensure the safety of the energy storage ...

- High Energy Efficiency: Maintains 70% efficiency after 10 years (two charges and two discharges). - Long Lifespan: Designed for a 15-year operational lifespan under standard conditions.

FTMRS SOLAR specializes in photovoltaic power generation, solar energy systems, lithium battery storage, photovoltaic containers, BESS systems, commercial storage, industrial storage, PV ...

The construction site backup energy storage solution employs liquid-cooled battery PACK + liquid-cooled PCS design, which has good heat dissipation effect. It supports long-term 1C rate discharging ...

The 350kWh All-in-one C& I Energy Storage Cabinet features a highly integrated design with built-in BMS, EMS, and PCS. Supporting off-grid and grid use, it cuts energy costs, boosts efficiency, and ...

A standard 2-hour power backup solution is available for each cabinet, and the independent dual DC port design makes it easy to connect multiple cabinets for a 4-, 6-, or 8-hour expansion solution.

We specialize in the production of lithium battery packs, energy storage systems (ESS), and battery management systems (BMS), with core applications in residential, commercial, and industrial sectors.

Safety designs such as water and electricity separation, three-level fire protection + explosion venting + exhaust, liquid cooling + dehumidification design, all ensure ...
