Rongke Power China has just brought the world's largest vanadium flow battery energy project online, marking a massive milestone in long-duration grid-scale energy storage.

The Linzhou Fengyuan 300MW/1000MWh project highlights the transformative potential of vanadium flow battery technology in large-scale energy storage. Its exceptional cycle life and ...

China has completed the main construction works on the world's largest vanadium redox flow battery (VRFB) energy storage project. The project, backed by China Huaneng Group, features ...

With the aim to address these challenges, we herein present the vanadium ion battery (VIB), an advanced energy storage technology tailored to meet the stringent demands ...

The latest update is out from Australian Vanadium ( AVL ) ). Australian Vanadium and its subsidiary VSUN Energy have lodged an Expression of Interest with the Western Australian ...

The Linzhou Fengyuan 300MW/1000MWh project highlights the transformative potential of vanadium flow battery technology in large-scale energy storage. Its exceptional ...

Sumitomo Electric is pleased to introduce its advanced vanadium redox flow battery (VRFB) at Energy Storage North America (ESNA), held at the San Diego Convention Center from ...

In late November, the state government launched the first stage of an expression of interest (EOI) for a 50MW/500MWh (10-hour ...
