What is an IP65 enclosure?

Casters, support legs and risers. IP65 enclosures are general outdoor cabinets that provide basic waterproof protection. They are equivalent to NEMA 4 and NEMA 4X enclosures. Our enclosure designs provide high quality electrical enclosures for industrial applications that can be easily customized to meet IP65 standards at a standard-model price.

What are IP cabinets used for?

Perfect for the use in indoor and outdoor areas such as industrial environments, damp and humid spaces, as well as for telecommunication and wide area (FTTx) networks. Our high quality IP cabinet variants protect your sensitive instruments from dust, moisture, dirt, and unauthorised access.

What does IP65 code mean?

The two-digit code shows the protection against particles (the first digit) and water (the second digit). IP65 electrical enclosures provide: Complete protection for the enclosed equipment from dust and other materials such as dirt, oils and non-corrosives. Protection from voltage and moving parts for people who come in contact with the enclosure.

Does bison profab meet IP65 standards?

Bison ProFab is a leading manufacturer of high quality electrical enclosures that meet IP65 standards. International Protection (IP) standards are used to designate the protective capacity of an electrical enclosure. The two-digit code shows the protection against particles (the first digit) and water (the second digit).
