Can a Bess project be financed at a holding company level?

For example, BESS projects could be financed at a holding company level where a diversified portfolio of other (likely renewable energy) assets could mitigate market risk that debt investors see in BESS projects.

What is project-financing a Bess project?

Project-financing a (standalone) BESS project is a "variation on a theme" - those familiar with project-financing other types of energy and infrastructure projects will recognise the solutions often adopted to make these projects "bankable".

How do I secure debt for Bess & hybrid projects?

Securing debt for BESS and hybrid projects requires a "bankable" revenue forecast from lenders preferred consultants. Developers need their own flexible modelling tools to optimise project design and achieve more favourable financing terms.

Who can pursue a Bess project?

project company (special purpose vehicles project owners or project sponsors establish to own the project assets and enter into the project and loan documents) can pursue for their BESS projects (see Battery Storage Revenue Models: Fixed Price Contracts and Battery Storage Revenue Models: Variable Revenue Sources).

But how do lenders today actually get comfortable with BESS and hybrid investments, what does it mean for project developers, and what the heck ...
