Equipped with a rack-mounted lithium iron phosphate battery and an advanced intelligent BMS management system, providing integrated, compact, and ...

Engineered for efficiency and flexibility, these cabinets are ideal for telecom base stations, smart energy networks, and industrial control sites, where both power and communication systems must operate ...

Focused on safety, scalability, and performance, it integrates high-capacity LiFePO4 batteries with smart management systems in a weather-resistant, compact enclosure.

Huijue Group's Mobile Solar Container offers a compact, transportable solar power system with integrated panels, battery storage, and smart management, ...

Equipped with a rack-mounted lithium iron phosphate battery and an advanced intelligent BMS management system, providing integrated, compact, and lightweight real-time monitoring and ...

Our energy storage solution is flexible in design and can be seamlessly integrated with various existing base station power systems. The modular design can better adapt to different types of base stations, ...

This series of products integrates battery PACK, BMS system, high-voltage box, power distribution unit, temperature control system, and fire protection system. It is designed in a cabinet style, which is ...

Integrated BMS, EMS, fire suppression, and air conditioning -- fully pre-assembled and tested. Plug-and-play installation with minimal on-site work, ideal for time-sensitive deployments. Remote ...
