The humidity inside the cabinet exceeds the limit, the constant humidity module is activated, and the humidifying pad is activated, with a lifespan of more than 5 years

Keep insulated tools, PPE, and test instruments within a safe operating envelope. Our climate controlled storage cabinets deliver stable temperature and humidity, ...

An energy storage cabinet pairs batteries, controls, and safety systems into a compact, grid-ready enclosure. For integrators and EPCs, cabinetized ESS shortens on-site work, simplifies compliance, ...

With the P500E, you can transfer energy bi-directionally to the battery, grid and DG, helping you to achieve more functionality and maximise the benefits of your energy storage system.

Our containerized ESS products include not only state-of-the-art battery energy storage systems but also expert engineering services to support every phase of your project lifecycle.

Perfect for residential backup power, renewable energy storage, small commercial operations, and remote installations. This system's compact size ensures ease of shipping and installation. As a plug ...

Outdoor cabinet products use high-performance LFP cell, cycle life up to 8000 times. Products adopt an active balance solution, built-in cloud equipment, support remote maintenance and monitoring, and ...
