In the pop-up window, enter your Recovery Key. Go to the Security section and click Edit. Remove the device you no longer wish to use to verify your identity. If you have additional ...

Enter can have a specific connotation often associated with entering numeric data in a spreadsheet. For example typing some data and then pressing the Enter key on a numeric keypad ...

Key Repeat No Longer Functioning At some point during the recent past, key repeat has stopped working. When I hold down any key, instead of the key repeating, a bubble appears over the ...

As for the fn (Function) key, I haven't found a way to reassign or customize it, but so far, I haven't needed it. If you don't use features like Dictation or emoji shortcuts, you probably ...

Question mark and slash key not working. I just got a new mechanical keyboard, it's a 60% keyboard (61 keys) and all keys are working except for the question mark and slash. I tried to ...

In the pop-up window, enter your Recovery Key. Go to the Security section and click Edit. Remove the device you no longer wish to use to verify your identity. If you have ...

A FileVault Recovery Key is 24 characters, while an Apple Account Recovery Key is 28 characters. Given where you're posting this is not the Apple Account community, I'll ...

Check that the command key is working properly by, for instance, doing a copy/paste (command + C, command + V). Try also to use the second command key on your keyboard (there ...
