With 85% of its energy still tied to coal and winter blackouts becoming a painful tradition, Kosovo's leap into energy storage isn't just smart - it's survival.

The Energy Storage Project aims to support Kosovo's energy security by using battery storage systems to provide reserves, improving system availability, and reducing the cost of securing adequate ...

A 2023 industry report showed proper thermal control extends battery life by 60% in Balkan climates. Our Pristina pilot project uses liquid cooling plates between modules, maintaining optimal

Portable energy storage products are a safe, portable, stable, and environmentally friendly small energy storage system that uses built-in high energy density lithium-ion batteries to provide a stable AC and ...

While lithium-ion batteries dominate headlines, Kosovo's project leans on LFP (Lithium Iron Phosphate) cells for safety and durability [8]. Think of LFP as the "Honda Civic" of ...

Lithium battery energy storage is more than a trend--it's Kosovo's pathway to energy independence. From cutting costs to boosting renewable adoption, these systems are reshaping how the nation ...

The government of Kosovo this week announced it will build a battery energy storage system (BESS) with a capacity of 200MWh-plus to deal with the country's energy crisis.

We specialize in advanced photovoltaic energy storage solutions, providing high-efficiency battery cabinets designed for reliable, sustainable, and clean energy.
