Can a hotel turn Kuala Lumpur into a beacon of sustainability?

And over the long term, saving energy and resources promises to reduce the property's operating expenses. Of course, one hotel alone will not turn Kuala Lumpur into a beacon of sustainability. The challenges in Kuala Lumpur are systemic, from infrastructure to cultural norms around consumption and waste.

Is Kuala Lumpur a sustainable hotel?

Kuala Lumpur is known for gleaming skyscrapers and luxury resorts, but not necessarily for sustainable hotels. The Hotel Indigo Kuala Lumpur On The Park is determined to change that. "We've been talking about sustainability from design to delivery," says General Manager Ashleigh Garside.

Why are guests not coming to Kuala Lumpur?

Reality check: Guests are not coming to Kuala Lumpur, or even to the Hotel Indigo, because of its sustainability program. But they seem happy to find the sustainability programs once they're here, says Garside. And over the long term, saving energy and resources promises to reduce the property's operating expenses.

What makes Indigo Kuala Lumpur a sustainable hotel?

The hotel has been built from the ground up with sustainability in mind, incorporating energy-saving internal systems. It also has the steadfast support of its Malaysian owners, a rarity in this part of the world. Rails made from repurposed rebar at the Hotel Indigo Kuala Lumpur On The Park.
