How do market analysts evaluate the cost of PV systems?

Market analysts routinely monitor and report the average cost of PV systems and components, but more detail is needed to understand the impact of recent and future technology developments on cost. Consequently, benchmark systems in the utility-scale, commercial, and residential PV market sectors are evaluated each year.

What is NLR's PV cost benchmarking work?

NLR analyzes the total costs associated with installing photovoltaic (PV) systems for residential rooftop, commercial rooftop, and utility-scale ground-mount systems. This work has grown to include cost models for solar-plus-storage systems. NLR's PV cost benchmarking work uses a bottom-up approach.

Why are EPC costs so volatile?

EPC costs, along with related challenges, have emerged as obstacles to development, particularly exacerbated by pandemic-induced labor shortages. The continued volatile environment for EPC costs is driven by a confluence of factors, including inflationary pressures, increased demand for renewable energy projects and rising wage requirements.

Will Power Purchase Agreement prices decrease in the foreseeable future?

By: Miro Sutton, Global Head of Energy & Renewables, and Kevin Arritt, Senior Managing Director, CBRE Energy & Renewables
Our analysis indicates that power purchase agreement (PPA) prices are not expected to decrease significantly in the foreseeable future.

Compare today's latest bidding price list for photovoltaic panels with actual supplier quotes - the difference could fund your next project's balance-of-system costs.

NLR analyzes the total costs associated with installing photovoltaic (PV) systems for residential rooftop, commercial rooftop, and utility-scale ground-mount systems.

The U.S. Department of Energy's solar office and its national laboratory partners analyze cost data for U.S. solar photovoltaic systems to develop cost benchmarks to measure progress ...

The current very low solar module prices may not be sustainable for the industry in the long term. Although

Latest price quote for long-term bulk procurement of photovoltaic cabinetized units
