---

Delivers 125 kW of rated AC power and 261 kWh of energy capacity, ideal for large-scale commercial and industrial applications. Integrates LFP batteries, modular PCS, EMS/BMS, power distribution, ...

Utilizing Tier 1 LFP battery cells, each battery cabinet is designed for an install friendly plug-and-play commissioning with easier maintenance capabilities. Each outdoor cabinet is IP56 constructed in a ...

372 kWh liquid-cooled cabinet battery storage system. Intelligent liquid-cooled temperature control, reduce system auxiliary power consumption. Configure the local control and remote monitoring ...

The iCON 100kW 215kWh Battery Storage System is a fully integrated, on or off grid battery solution that has liquid cooled battery storage (215kWh), inverter (100kW), temperature control and fire safety ...

The HB-UTL Series is a high-voltage DC battery system designed for seamless integration with solar PV systems. With advanced liquid cooling technology and high-efficiency LFP battery modules, this ...

The iCON 100kW 215kWh Battery Storage System is a fully integrated, on or off grid battery solution that has liquid cooled battery storage (215kWh), inverter (100kW), temperature ...

All-in-one design with liquid cooled battery rack pre-installed and a plug and play interface for auxiliary power supply, communication, and DC connection, which can be installed as a ...

Delivers 125 kW of rated AC power and 261 kWh of energy capacity, ideal for large-scale commercial and industrial applications. Integrates LFP batteries, modular ...
