This heavy-duty enclosure securely houses a Stand By Power Supply and three (3) batteries along with equipment and cable required for fiber optic conversion and/or distribution.

Assembled in a single platform, the E-house integrates the electrical and control systems of the mining processing plants, therefore the need for costly, permanent structures is avoided.

The robust TRIO POWER IP67 power supplies are ideal for use in applications outside of the control cabinet. The robust aluminum housing ensures ideal protection against extreme environmental ...

Our converters can help improve power factor and low-current harmonics. They are designed to meet the most stringent electric utility standards and have high tolerance for line voltage fluctuations ...

Discover how advanced UPS systems protect Chile's mining, manufacturing and energy industries from costly power disruptions. Learn about tailored solutions improving operational continuity in a nation ...

In addition to our ExtremeUPS® line, we offer our PowerStation(TM) UPS line, ideally suited for industrial, defense, and telecommunications applications requiring ...

The Base Station Energy Cabinet is a fully enclosed, weather-resistant telecom energy cabinet designed to provide reliable power distribution and battery backup for outdoor communication networks.

In addition to our ExtremeUPS® line, we offer our PowerStation(TM) UPS line, ideally suited for industrial, defense, and telecommunications applications requiring high reliability power in a NEMA cabinet, ...
