How do I program the battery capacity of my ferrups rack mount ups?

If your FERRUPS Rack Mount UPS is configured to use an external battery cabinet, you must program the battery capacity in ampere-hour (Ah) for the total number of battery packs used in the UPS. If you purchased one of the FERRUPS Rack Mount battery pack options available from Eaton, select the Ah value from Table 2.

Does Eaton offer a rack mount ups?

Eaton offers many options for your FERRUPS Rack Mount UPS. If you would like more information, contact Eaton or your local distributor. Bypass Switches If your UPS does not have a plug, a bypass switch can transfer the protected equipment to direct AC input power conveniently when it's time to service the UPS.

Can a ferrups rack mount ups communicate with a computer?

The FERRUPS Rack Mount UPS is capable of full-duplex communication and can communicate with a computer, a Local Area Network (LAN), or a multi-user computer system. If your system comes with UPS monitoring and automatic shutdown software, the FERRUPS Rack Mount UPS can communicate with that software.

When does Eaton recommend a preventive maintenance visit?

For components marked ?, Eaton recommends preventive maintenance (PM) inspections in the year indicated. During the PM visit Eaton inspects, tests, calibrates, updates, and cleans components (as applicable). For components marked ?, Eaton recommends proactive replacement in the year indicated or before based on estimated useful life.
