Typically built at any required scale and provide power in remote and/or off-grid areas/facilities with limited grid access. Supplies higher-demand factory, hospital and data-center facilities with reliable ...

Highly scalable and customizable, our battery energy storage system solutions can be tailored to specific capacity needs, supporting both on-grid and off-grid operations.

Powered by Lithium Iron Phosphate (LiFePO4) batteries, this 250kW / 575kWh Battery Energy Storage System (BESS) is ready to supply reliable power in challenging situations both off and on grid.

A complete mid-node battery energy storage system (BESS) with everything you need included in one container - Our 250 kW/575 kWh battery solutions are used across a wide variety of sectors to ...

Powered by Lithium Iron Phosphate (LiFePO4) batteries, this 250kW / 575kWh Battery Energy Storage System (BESS) is ready to supply reliable power in ...

Pilot Integrated ESS is highly combined with LFP battery system, BMS, PCS, EMS, liquid cooling system, fire protection system, power distribution and other equipment inside the cabinet. Provide ...

This product is a 250kW/520kWh industrial and commercial integrated energy storage cabinet utilizing Lithium Iron Phosphate (LFP) battery cells.

Expansion enclosures can be added to increase the battery storage from 440 kWh up to 1760 kWh. The BESS can be run in off grid systems or grid Connected where it can provide grid ...
