Designed with affordability and efficiency in mind, this cost-effective solution supports solar integration and is ideal for households seeking backup power, energy independence, or off-grid living.

ESS810 Energy Storage System is an all-in-one solution, which integrates an inverter and a battery into one unit. ESS810 has combined an 8KW off-grid inverter and 5KWh expandable lithium-ion battery ...

With the ESS D 11/8, the company offers a mobile energy storage system that provides both three-phase and single-phase current with up to 13 kW and a usable capacity of 8 kWh, making ...

- o Integrated 8kw off-grid inverter and lithium-ionbattery module
- o Built-in Wi-Fi for mobile monitoring (Android/iOS App is available)
- o Supports USB On-the-Go function
- o Reserved communication port ...

Our wide range of services includes the design, installation, and maintenance of energy storage systems and the sale of related components and equipment. With a range of products and services available, ...

The SolaX X1-IES is a modular energy storage system with a 2.5~8kW hybrid inverter, BMS, and extensible 5kWh to 20kWh battery modules, designed for ...

Leveraging the benefits of high-density lithium-ion batteries, these units are compact and light compared to traditional alternatives, yet capable of providing days of autonomy of power with a single charge.

The SolaX X1-IES is a modular energy storage system with a 2.5~8kW hybrid inverter, BMS, and extensible 5kWh to 20kWh battery modules, designed for residential and small commercial applications.
