Why did Moldova launch its first wind and solar power plant?

CHISINAU, Aug 16 (Reuters) - Moldova launched its first tender for wind and solar power plants on Friday as part of a push to reduce its reliance on Russian energy. "Opening up for investors to develop renewables is yet another critical step towards ensuring greater energy security for Moldova," Energy Minister Victor Parlicov told Reuters.

How much energy does Moldova use in 2023?

Official data shows Moldova increased the share of renewable energy sources in its electricity consumption to 10.5% in 2023 from 3.6% in 2021, driven by wind and solar. Officials said the total installed capacity was around 400 MW at the end of the second quarter of 2024.

What's going on with Moldova's energy infrastructure?

That action, he said, included connecting Moldova's grid to the European Network of Transmission System Operators (ENTSO-E), upgrading energy infrastructure to receive natural gas from diverse sources, and building electricity lines to enhance its connection with the European Union.

In a significant development for the Republic of Moldova, the government has announced a groundbreaking tender for the construction of land-based wind farms and photovoltaic (PV) power ...

Moldova's Ministry of Energy has received 42 bids for its latest auction to develop large-scale solar and wind farms, far exceeding the available capacity.

With the recent tender announcements, Moldova plans to add 105 MW for wind farms and 60 MW for solar parks to its current installed capacity. ...

The regulation for the first tenders for the installation of wind and photovoltaic power plants with a capacity of 165 MW was approved today by the Government, another step towards ...

With the recent tender announcements, Moldova plans to add 105 MW for wind farms and 60 MW for solar parks to its current installed capacity. The capacity limit for obtaining prominent ...

Feb 5 (Interfax) - The Moldovan Energy Ministry will accept applications from potential investors until March 31 for constructing wind and solar parks with a total capacity of 165 MW, the ministry said.
