MAKRO POWER designs & manufactures any type of PV solutions and cabinets connected to the grid, off-grid, with or without battery storage with designs adapted to customer requirements.

This energy storage cabinet is a PV energy storage solution that combines high-voltage energy storage battery packs, a high-voltage control box, an energy storage PV inverter, BMS, cooling systems (an ...

Maximum efficiency of 97.8% and battery efficiency of 97.0% Maximum 12kW PV input power Maximum battery charge/discharge current of 42A High Flexibility Large MPPT current, compatible with high ...

This product is primarily designed for industrial and commercial microgrid energy storage solutions, offering high efficiency and reliability for small and medium-sized enterprises.

What is a mobile solar PV container?High-efficiency Mobile Solar PV Container with foldable solar panels, advanced lithium battery storage (100-500kWh) and smart energy management.

Outdoor cabinets are manufactured to be a install ready and cost effective part of the total on-grid, hybrid, off-grid commercial/industrial or utility scale battery energy storage system.

This energy storage cabinet is a PV energy storage solution that combines high-voltage energy storage battery packs, a high-voltage control box, an energy storage PV inverter, BMS, cooling systems (an ...

Investing in a solar battery cabinet is an excellent way to enhance your energy storage capabilities. With benefits like improved safety, space optimization, longer battery life, and reliable backup power, a ...
