Will Eve energy build a new battery project in Malaysia?

Eve Energy plans to build a new battery project in Malaysia to further expand its footprint in Southeast Asia. The Chinese battery giant plans to build a project in Malaysia for the production of energy storage batteries, with an investment of no more than RMB 8.65 billion (\$1.2 billion), according to a stock exchange announcement on June 27.

Is Penang a good place to invest in lithium batteries?

As the economic core of Northern Malaysia, Penang--supported by its advanced manufacturing base and well-established industrial ecosystem--has attracted numerous new energy enterprises and is rapidly emerging as a manufacturing and technological innovation hub for the ASEAN lithium battery industry.

Why is Penang launching a battery plant?

Speaking at the inauguration, Penang Chief Minister Chow Kon Yeow welcomed the project as a major boost to the state's high-tech and green industry ecosystem. The plant is expected to create 1,200 skilled jobs and foster partnerships with local universities to promote research and innovation in battery technologies.

Why did INV New Material invest in Malaysia?

As a unit of Shenzhen Senior Technology Material Co Ltd, INV New Material's investment underscores growing global confidence in Malaysia's manufacturing capabilities. Company chairman Datuk Chen Xiu Feng said Penang offers the perfect industrial environment and geographic advantage to serve Southeast Asia and beyond.

In January 2024, Eve Energy announced plans to establish an energy storage company in Malaysia and acquire a second plot of land to build ...
