What are outdoor Telecom cabinets?

Outdoor telecom cabinets are built to withstand harsh environmental conditions. These enclosures protect telecommunication equipment from rain,dust,extreme temperatures,and unauthorized access. They are commonly used in remote locations,such as cell tower sites,roadside installations,and industrial areas.

Why should you choose a telecom outdoor cabinet?

An outdoor telecom cabinet is a worry-free solutionfor safeguarding your equipment from moisture and harsh environmental conditions. KDM's cabinets are factory tested and feature double-wall construction and a tight seal. They come with accessories such as enclosure fans and power options.

What is an indoor Telecom cabinet?

Indoor telecom cabinets are designed for controlled environments like data centers,server rooms,and office spaces. These enclosures provide a secure and organized space for housing telecommunication equipment. Since they are used indoors,they do not require extensive weatherproofing.

What accessories are included in an outdoor Telecom cabinet?

An outdoor telecom cabinet from KDM includes enclosure fans and power options. Depending upon the installation location,KDM also offers an optional built-in air conditioner or heat exchanger.
