What are the different types of crude oil refineries?

Modular Refineries Mini Crude Oil Refineries Hydroskimming Refineries Traditional Refineries Conventional Refineries High-Yield, Diesel-Topping Units Modular Gas Plants Crude Oil Flow Stations Oil and Gas Process Equipment Plant Relocations Gas Processing Plants Full-Conversion Crude Oil Refineries Petrochemical Plants

Who is oil & gas EPC?

We are a USA-based, full-service Oil and Gas EPC company that specializes in the design, engineering, procurement, fabrication, commissioning, sales, supply, installation, and maintenance of the following: Modular Refineries Mini Crude Oil Refineries Hydroskimming Refineries Traditional Refineries Conventional Refineries

What is a traditional refinery?

A traditional refinery is a high-capacity crude oil refinery constructed at a site involving various processing units to produce and meet high-quality petroleum products, such as high-octane gasoline, aviation or jet fuel, and ultra-low sulfur diesel.

Our Ex enclosures are designed for use in Ex zones 1 and 2, and are also suitable for outdoor siting. Wide temperature fluctuations call for maximum robustness and resilience.

From outdoor energy storage system cabinets to integrated cloud-based controls, EPC Energy has you covered. We want to help you create ...

Abstract - This paper presents a case study for a recent Company approved offshore oil and gas development project aims to install 19 platforms with off-grid photovoltaic (PV) and battery ...

ETA Enclosures USA provides electrical enclosures designed for the extreme conditions of the oil, gas, and petrochemical industries. Our enclosures are engineered to protect sensitive electrical and ...

For more than 30 years, we have been the custom enclosure manufacturer trusted by our partners in the oil and gas industry to provide temporary and permanent ...

Engineered to meet smart grid design specifications, this outdoor cabinet ESS features electrical isolation that
