Designed for maritime environments, Alotta Solar Hybrid is a flexible and cost-efficient solution that enhances energy resilience and supports a transition to cleaner energy ...

The Alesund-based company, founded in 2020 as Inseanergy and rebranded last year, installs solar panels on reinforced membranes fitted inside floating netpen ...

Imagine balancing a seesaw - that's what these cabinets do for Norway's renewable-heavy grid, smoothing out fluctuations from wind farms and hydropower plants.

Highjoule's wind and solar energy storage cabinets can be integrated with home energy systems to provide all-weather renewable energy. The smart lithium battery energy storage system is suitable ...

Highjoule's wind and solar energy storage cabinets can be integrated with home energy systems to provide all-weather renewable energy. The smart lithium battery energy storage system is ...

Our products represent a range of ocean-based renewable energy solutions with and without energy storage, and our floating solar solution SUB Solar(TM)V2 is one of them.

Renewable energy sources like wind and solar are intermittent, and because of this, the power production cannot be regulated to match the demand directly. This means that off-grid systems either ...
