Who makes outdoor Telecom cabinets?

Since 1989, we've manufactured outdoor telecom cabinets in America's Heartland, providing telecommunications companies, utilities, and network operators with BABA-compliant solutions that protect critical equipment from the harshest environmental conditions.

What is a multitenant outdoor cabinet?

Vikiner's multitenant outdoor cabinets enable multiple operators or equipment types to share the same protected infrastructure. Segmented internal layouts and isolated compartments ensure electrical and thermal separation, making them ideal for shared telecom or co-location sites. Get technical specifications and pricing tailored to your project.

Can telecommunications equipment be terminated outdoors?

One of the biggest challenges of terminating your telecommunications equipment outdoors is finding outdoor enclosures that will be able to properly withstand the elements. Temperature, moisture, ice, shock hazards, and UV damage are all potential dangers to consider before purchasing an outdoor enclosure or cabinet.

How is a telecom cabinet installed?

Installation: The cabinet is installed on-site, typically on a concrete pad or mounting base. All telecom equipment is configured and connected to the appropriate power sources and communication lines.
