How much oil is in the Levant Basin?

New discoveries of natural gas in the Levant Basin are in the range of 122 trillion cubic foot while recoverable oil is estimated at 1.7 billion barrels, according to the study, entitled " The Economic Cost of Occupation for the Palestinian People: The Unrealized Oil and Natural Gas Potential."

How does Israel's exploitation of natural resources affect the Palestinian people?

Israel's exploitation of Palestinian natural resources, including oil and natural gas, imposes on the Palestinian people enormous costs that escalate as the occupation remains in effect, the study cautions.

Where is the Occupied Palestinian territory?

Geologists and resources economists have confirmed that the occupied Palestinian territory (oPt) lies above sizeable reservoirs of oil and natural gas wealth, in Area C of the West Bank and the Mediterranean coast off the Gaza Strip, according to a recent UNCTAD study.
