-----

The IP54 waterproof shell makes it perfect to adapt to a variety of indoor or outdoor industrial and commercial application scenarios, such as photovoltaic charging stations, industrial parks, ...

This is a 500KW small-scale commercial and industrial energy storage system. It can store electricity through photovoltaic, diesel generators, and other means, with off-grid design.

The Microgrid System combines high-density lithium battery storage, MPS Microgrid Cabinet, intelligent EMS control, fire safety, thermal management, ...

The IP54 waterproof shell makes it perfect to adapt to a variety of indoor or outdoor industrial and commercial application scenarios, such as photovoltaic charging stations, industrial parks, farms, etc.

It adopts door-mounted embedded integrated air conditioning, which does not occupy cabinet space, improves the available space of outdoor cabinets, has better structural ...

Outdoor energy storage cabinet integrates energy storage battery, modular Pcs, energy management monitoring system, power distribution system, environmental control system and fire control system.

Bypass cabinet is designed to be used together with bidirectional battery inverter and PV inverter to realize seamless transfer between on and off grid mode automatically.

The Microgrid System combines high-density lithium battery storage, MPS Microgrid Cabinet, intelligent EMS control, fire safety, thermal management, and SCADA connectivity -- all pre ...
