What sizes are available for Vertiv DCE server rack cabinets?

Vertiv DCE server rack cabinets are available in heights of 24U,42U,45U,and 48U. Widths of 600mm,700mm,or 800mm; and depths of 1100mm or 1200mm. Each rack is optimized for cable management and airflow management.

What is a 42U Navepoint commercial server cabinet?

The 42U NavePoint Commercial Series network server cabinets have capacity and quality --everything it takes to get the job done right for your high-density applications that rack and store a range of 19-inch equipment like servers,patch panels,PDUs,routers,and more.

How big should electrical cabinets be?

Electrical cabinets should provide adequate space for all components plus reasonable room for maintenance access and potential additions. Standard cabinet widths (600mm, 800mm, or 1200mm for floor-mounted units) simplify specification, while height and depth dimensions vary based on specific application requirements.

Are Navepoint cabinets pre-assembled?

The NavePoint Commercial Series cabinets come pre-assembled for easy setup and include pre-installed heavy-duty locking casters for mobility,and leveling feet for use when the fully racked cabinet needs to stay in place. These network enclosures feature adjustable square untethered cage nut opening mounting rails with u-markings.

This SmartRack® 42U enclosure is designed for network wiring closets, retail locations, classrooms, back offices and other areas with essential rack-mount IT equipment.
