Understanding the cost structure and price trends of energy storage systems can provide clarity to customers looking to invest in these ...

Summary: Prices for PV battery storage systems have fallen sharply in recent years. In 2024, they are around EUR400 to EUR800 per kWh of capacity - which is only about half the price of 2021. ...

The European Energy Storage Market Monitor (EMMES) updates the analysis of the European energy storage market (including household storage, industrial storage and pre-metre storage) and forecasts ...

Oil markets responded to a raft of (mostly) negative catalysts throughout the year. Oil prices fell in the first half of the year due to slowing economic activity taking a toll on global oil demand.

Oilprice offers real-time oil prices for over 150 global crude blends and indexes, with live charts, comparisons, and smart analytical tools used worldwide.

Solar battery backup systems in Europe typically cost between EUR5,000 and EUR15,000, with prices varying significantly based on capacity, brand, and installation requirements.

27.1 GWh of new battery capacity installed in 2025, marking the EU's 12th consecutive record year for battery storage deployment. 55% of all new capacity came from utility-scale systems, ...

Weather remains the key driver of natural gas prices and speculative positioning across various regional benchmarks in the northern hemisphere.
