Professional manufacturer of IP55 and IP65 rated cabinets including power storage cabinets, communication outdoor cabinets, battery cabinets, telecom cabinets, and industrial enclosure ...

The outdoor hybrid power supply cabinet integrates a robust power system that combines energy generation, storage, and management. Its components, including solar panels, ...

Solar and wind farms face the "intermittency challenge" - the sun doesn't always shine, and wind speeds vary. The Pristina storage cabin acts as a buffer, storing surplus energy during peak production.

The battery modules are equipped with an automatic fire extinguishing device to prevent fire hazards. Click here for User Manual details.

This cabinet integrates advanced battery technology, energy management systems, and intelligent controls, achieving efficient energy storage in a compact device.

Featuring an IP55/IP65-rated enclosure, it offers excellent resistance to water, dust, and corrosion, making it ideal for solar energy, wind-solar hybrid, off-grid, and industrial backup power systems.

JNTech all-in-one solar storage system integrates an inverter and energy storage cabinet into a single unit, providing a compact and efficient solution for solar and microgrid systems.
