Have a clear understanding of the advantages, responsibilities and risks of the cooperative owning and operating the BESS, or paying for performance under a power purchase agreement (PPA).

The most common procurement structure for BESS projects is to combine the first two elements -- the BESS and inverters -- in one contract and leave the rest separate. A number of ...

For projects that will sell energy back to the utility, applicants should provide information on the applicable sale rate (\$/kWh), as well as net metering arrangement and other associated ...

Learn about the essential elements of a solar RFP; receive introductory guidance on how to evaluate any proposals received; and be ...

Solar-Plus for Electric Co-ops (SPECs) was launched to help optimize the planning, procurement, and operations of battery storage and solar-plus-storage for electric cooperatives. SPECs was selected by the U.S. Department of Energy's National Renewable Energy Laboratory (NREL) for Round 2 of the Solar Energy Innovation Network (SEIN). Cliburn and A...
