What is California's energy storage procurement framework?

California's energy storage ecosystem, built since Assembly Bill 2514 and through 2021, includes a crucial component: the PU's Energy Storage Procurement Framework. This framework motivates the development of both demand and supply in the energy storage marketplace.

What does the PU's Energy Storage Procurement Framework do?

The PU's Energy Storage Procurement Framework provides crucial motivation to the development of both demand and supply in this marketplace. Since the time of Assembly Bill 2514 and through 2021 California built a rich ecosystem for energy storage research and development, commercialization, and project deployment.

Who published the CPUC Energy Storage Procurement Study?

This work has been developed and published by Lumen Energy Strategy, LLC in Oakland, California under commission by the California Public Utilities Commission.

Where can I find a California energy storage procurement study?

You can find the California Public Utilities Commission Energy Storage Procurement Study at The study was prepared by Lumen Energy Strategy, LLC for the California Public Utilities Commission and was released on May 31, 2023.

What to Buy for Energy Storage Project Planning: A Procurement Guide for Smart Decision-Makers

Access the definitive 2026 guide for corporate photovoltaic and energy storage procurement. Learn strategic frameworks to avoid common financial and technical pitfalls while ...

As a result, energy storage negotiations will involve the consideration of new terminology (charging capacity, charging duration, storage capacity) and ...

In the day-ahead stage, the microgrid operator must determine the optimal capacity procurement of VES (e.g., through demand response) for smart operation. For this purpose, this ...

As a result, energy storage negotiations will involve the consideration of new terminology (charging capacity,
