Can Malaysia build a large-scale battery energy storage system?

Four projects have been selected in Peninsular Malaysia's first programme to build large-scale battery energy storage system (BESS) facilities. "A multi-stream revenue stacking model" made it possible for Pacifico Energy to self-fund a new grid-scale battery storage project in Japan.

How does ESMAP support developing countries in deploying energy storage?

ESMAP is supporting developing countries in deploying energy storage through providing access to concessional finance, technical assistance, and addressing key knowledge gaps through an international Energy Storage Partnership (ESP).

What is a solar and energy storage zone?

Our Solar and Energy Storage Zone is dedicated to spotlighting the latest breakthroughs in solar technology, tailored to cater to a diverse audience. From empowering large-scale buyers steering monumental projects to providing eco-friendly solutions for home users, these zones are a testament to the versatility and power of sustainable energy.

Why should you join solar and energy storage?

In an era where environmental consciousness is paramount, Solar and Energy Storage stands as a pivotal platform for industry leaders, professionals, and enthusiasts alike. Why Join Us? Largest solar exhibition in Thailand and ASEAN, contributing to global carbon neutrality.
