When will a battery energy storage system start in Senegal?

Construction of the battery energy storage system is expected to commence in early 2024 at the Tob&#232;ne substation in Thies and is expected to become operational in 2025. Once complete, it will be one of the largest of its kind in West Africa, and will help Senegal to avoid approximately 37,000 tonnes of carbon dioxide emissions each year.

Will Senegal be a low cost producer of electricity?

Expected to be one of the lowest cost producers of electricity in Senegal, the project is helping reduce the cost of electricity generation in the country, which has one of the highest generation costs in Sub-Saharan Africa. About Infinity Power Infinity Power is Africa's largest pure play renewable energy provider.

Where is a Bess project being built in Senegal?

The BESS is to be built at the Tob&#232;ne substation in Thies, Senegal. It will be operated by Infinity Power's 158.7 MW wind farm in Senegal, Parc Eolien Taiba N'Diaye (PETN)

Senegal has begun commercial operations at a new solar energy facility that combines photovoltaic power with lithium-ion battery storage, the first ...

The Walo energy storage and photovoltaic project is described by Africa REN as the first major storage project in Africa, and is located in Bokhol, a rural community in northwestern Senegal.

Senegal has officially inaugurated the "Walo Storage" plant in Bokhol (Saint-Louis Region) on January 22, 2026. This marks a technological milestone as West Africa's first large-scale ...

Walo Storage positions Senegal at the forefront of integrating variable renewable energy while enhancing grid resilience. Its operational model offers a replicable blueprint for neighboring ...

The on-time commissioning of Walo Storage demonstrates our ability to support Senegal's energy transition using cutting-edge technology. It is also a key milestone in our ambition to build ...

Construction of the battery energy storage system is expected to commence in early 2024 at the Tob&#232;ne substation in Thies and is expected to become operational in 2025. Once complete, it ...
