How do you pay for a solar system?

There are three main ways to pay for your home solar system: upfront with cash, a solar loan, or through a lease or power purchase agreement (PPA). If you can't afford to pay for your system out of pocket--or don't want to tie up that capital--solar financing allows you to spread the cost over time through a loan or lease.

Can you finance solar panels without a down payment?

Fortunately, there are options for financing solar panels that make it possible to benefit from solar energy savings without paying the hefty upfront cost. Many of these also offer little to no down payment, allowing homeowners to make the switch even if they don't have a lump sum of savings to invest.

How much does a solar system cost?

If you can't afford to pay for your system out of pocket--or don't want to tie up that capital--solar financing allows you to spread the cost over time through a loan or lease. A typical 12 kW solar panel system costs about \$29,649 before incentives, based on thousands of quotes in the EnergySage Marketplace.
