Through the combination of advanced LiFePO₄ batteries with smart battery management and compact design, it offers safe, reliable, and scalable energy backup for mission-critical applications.

Octave develops Battery Energy Storage Systems (BESS) and Energy Management Systems (EMS) for commercial and industrial companies. Our flexible and scalable energy storage systems, built with ...

High-efficiency Mobile Solar PV Container with foldable solar panels, advanced lithium battery storage (100-500kWh) and smart energy management. Ideal for remote areas, emergency rescue and ...

The ESS-GRID Cabinet series are outdoor battery cabinets for small-scale commercial and industrial energy storage, with four different capacity options based on different cell compositions, 200kWh, ...

Discover our high-efficiency, modular battery systems with zero capacity loss and rapid multi-cabinet response. Ideal for industrial, commercial, and emergency applications, our solutions offer remote ...

Huijue's BESS are designed to be highly scalable, catering to a wide range of industrial and commercial requirements. The modular design allows for easy expansion, enabling customers to start small and ...

Whether for peak shaving on-grid or backup support off-grid, the CESC small C& I solution delivers a stable and energy-efficient power experience through flexible system design and intelligent control.

The MUST Small Commercial & Industrial Energy Storage Systems are designed to provide robust energy management with high-performance lithium battery ...
