Which inverter options are available?

All systems are customizable. Larger inverter options are available dependent on your power needs. Option 1 with 2 x US3000 lithium batteries. Option 2 with 2 x UP5000 lithium batteries. This automatic switchover would allow for all your essential appliances to work with NO disruptions.

How big should an inverter be?

Inverter: The inverter's size should be equal to or slightly larger than the total power of your panels. Don't exceed the inverter's capacity! Batteries: This depends on how much backup power you need during outages. A larger battery bank provides more autonomy but increases cost. Need more Info?

Can I bypass my inverter settings?

You can also bypass your inverter settings to force your batteries to charge in the case of an expected power outage. Powerpilot Predictive Energy Optimiser dynamically fine-tunes your inverter based on expected load-shedding, historical usage trends and up-to-date weather forecasts.

The all-in-one air-cooled ESS cabinet integrates long-life battery, efficient balancing BMS, high-performance PCS, active safety system, smart distribution and HVAC into one cabinet, ...

Our team offers a complete solution, including planning, installation and upgrades, automation, monitoring and management, whether you are planning a new installation or have an existing system.

This is a multi- function inverter/charger, combining functions of an inverter, solar charger and battery charger to offer uninterruptible power support with portable size.

Provides information to assist the choice and procurement of bi-directional metering for SSEG, including types and configurations of meters, links with smart metering systems, and relevant ...

Cape-Inverters have a range of inverter / battery and inverter / solar backup solutions that will suit your unique needs and keep you protected from load shedding and power outages.

Our team offers a complete solution, including planning, installation and upgrades, automation, monitoring and management, whether you are planning a new ...
